Lyell Meeting 2012

Thursday, 29 March, 2012

'Big Palaeontology', The Geological Society, London

Large-scale projects, involving multidisciplinary geoscience teams from numerous institutions, are playing an increasingly important role in modern palaeontological research. This meeting will showcase the science being undertaken in these projects across the range of palaeontological disciplines, including key contributions from junior researchers. We will discuss the benefits and logistics of running these large-scale projects including funding, outreach and training opportunities.

Convenors: Drs Jeremy Young (UCL) and Tom Dunkley Jones (University of Birmingham)
