

The Micropalaeontological Society

<http://www.tmsoc.org>

Annual General Meeting 2015

Preliminary program

Monday 16th November: *Rock to Clock: the importance of microfossils* Symposium and Society AGM

The afternoon session will be dedicated to the importance of microfossils in fundamental and applied biostratigraphy, looking into biodiversity, evolution, geological indicators, as presented by the keynote speakers

13.45-14.00: Welcome and opening of the TMS AGM 2015

14.00- 16.00: (including coffee/tea break)

- Vanessa Bowman: Unveiling biotic change in Antarctica during the Late Cretaceous and Paleogene – the big picture from detailed biostratigraphy and palaeoecology
- Mike Simmons: Stratigraphic Sudoku – Making the Most of Microfossils in the Middle East
- Simonetta Monechi: Calcareous nannofossils: a powerful tool for stratigraphic investigations

16.00-17.00: Awardees presentations Marin Buzas, Tom Hill)

17.00-18.00: AGM and awards

18.00-19.00: Drink Reception at the Foresight centre (sponsored by *Petrostrat*)

19.30-: Conference dinner at the Liver Building

Tuesday 17th November: Poster session and open talks on micropalaeontology

From 9.00 to 16.00: The day will comprise of talk and poster presentations.

Registration will be £15 for students/unwaged TMS members, £30 for Regular TMS members/unwaged or student TMS non-members and £40 for regular TMS non-members." It will cover refreshments and symposium pack for the two days.

The deadline for Registration is the 15th of October. Further information about the symposium venue, travel arrangements, accommodation options etc. is available at www.tmsoc.org

For further information, please contact TMSAGM2015@gmail.com or visit our website www.tmsoc.org

Symposium organisers: Fabienne Marret-Davies, Alan Bowden and Kirsty Edgar.
